PURPOSE

OUTLAW VOLLEYBALL CLUB exists for the benefit of those who wish to achieve excellence in the sport of volleyball, and promote interest in the sport at the local and national level. We believe that OVC teaches individuals to excel, promote competitiveness, family unity, and develops leadership skills that transcend athletics into every aspect of a member's life.

PHILOSOPHY

OUTLAW VOLLEYBALL CLUB has as its objective to be recognized as the finest volleyball organization in the nation. This can be accomplished by:

- Developing interest and encouraging participation in large numbers by conducting day camps and leagues for players at all levels.
- Developing highly competitive teams whereby recognition is gained through winning.
- Encouraging and helping well-rounded, outstanding athletes to pursue higher education.

The OUTLAW VOLLEYBALL CLUB is beginning its thirtieth year as a Junior National Volleyball program in the Austin and Central Texas area for girls aged 12 through 18.

A short note about our group clinics versus private lessons. I have been asked before if I conduct private lessons and I have learned over the years and in watching other clubs conduct private lessons that with one player per lesson two things come to mind: 1) the cost is high to cover the gym expense, 2) the player usually gets very tired after about the first 20-25 minutes and then becomes lazy and develops bad habits. During our previous clinics I found that players improved quicker and retained the skills being taught when working in a group. It also creates a type of competition between players when training among their peers. You can visit our Facebook page to view videos to show the type of training involved with this program.

Position specific training: This program is for those volleyball athletes who want to improve their individual position specific skills at a very high level of training. This program will run during October and November on Monday and Wednesday nights and each position will receive approximately 10 hours of training as well as some video training. These sessions will cover the proper foot work as well as covering all types of sets and hits at the college level. **Limit of 8 per position.** Cost for this program is \$250. ***SEE COUPON BELOW***

October 3, 6, 10, 13, 17
